High Speed Duplication of SD & uSD Cards

The M1500 uses an IMI Patented SD interface which allows both super speed USB block data transfers as well as low level SD card register access.

Easily Changeable uSD adapters

The M1500 uses IMI custom designed MicroSD adapters that can be individually inserted into the 8 M1500 SD sockets and are held in place with a single removable bar.

Included Front Panel Functions for Each Section

Copy Master to Target Cards: Copy/Verify Master to Target Cards: Erase Target Cards: Verify Master to Target Cards: Set up User Job: Set up Card Type/Parameters: Copy Log to USB drive

Computer Interface with Optional Remote Data Logging

The M1500 has a 10/100/1000 Ethernet port which allows connection to standard networks.

Graphical Interface

With the attachment of a LCD/Key/Mouse, a full featured GUI running under Linux is available
