M5500-SD-32 Duplicator

M5500 With Terminal, Key, & Mouse

M5500 With Micro SD Adapters

High Speed Duplication of SD & uSD Cards

The M5500 uses an IMI Patented SD interface which allows both super speed USB block data transfers as well as low level SD card register access.

Easily Changeable uSD adapters

The M5500 uses IMI custom designed MicroSD adapters that can be individually inserted into the 8 M5500 SD sockets and are held in place with a single removable bar.

Front Panel Functions for Stand Alone Operation

Copy Master to Target Cards: Copy/Verify Master to Target Cards: Erase Target Cards: Verify Master to Target Cards: Set up User Job: Set up Card Type/Parameters: Copy Log to USB drive

Network Computer Interface with SQL Job Data Logging

The M5500 has a 10/100/1000 Ethernet port & supports connection to standard networks.

Graphical Interface

With the attachment of a LCD/Key/Mouse, a full featured GUI running under Linux is available
